TWIN TURBO

Specializing in Innovative Orchard & Vineyard Equipment

- Efficient! Works both sides simultaneously
- Work Faster-- Up to 6mph!
- Great for organic growers
- Each side is independently driven
- Double acting hydraulic tool

Built for front or rear mount--
Available in two frame sizes:
- one for rows from 71” (180 cm) to 110” (280 cm)
- one for rows from 99” (250 cm) to 150” (380 cm)

All Twin Turbo models need 7gpm of oil flow from the tractor--
If the tractor cannot supply this flow, Rinieri can supply a hydraulic kit

Versatile - 4 optional heads to customize the Twin Turbo for your specific needs
